## Opera Master Hospital Increase rate of surgical cases

 Growth rate of new hospitalized patients / day

- Number of surgeries is recovering, but the impact of the 7th wave COVID-19 was seen in the 2nd quarter
- Differing levels of recovery in surgery numbers depending on medical institution, leading to overall polarization trend

## Fiscal 2022 - Second Quarter Highlights

## ■ Market environment

$\checkmark$ Increased turnover of healthcare workers
$\checkmark$ Renewed debate about work-style reforms for healthcare workers
Ongoing polarization between medical institutions working to increase surgery numbers (in COVID-19 environment) and those working to improve management
$\checkmark$ Functional differentiation in medical institutions encouraged (Subsidies to support the reorganization of hospital beds by function are being used in different ways in different regions.)
$\checkmark$ Recovery in number of surgeries to pre-COVID level

## ■ Performance highlights

$\checkmark$ Premium Kit sales up due to new sales 21.9\% year on year
rSales of other non-woven fabrics (masks and cap products) were expected to decrease due to the slowdown of COVID-19, but the use of high-performance masks (such as N95) increased due to the 7th wave
$\checkmark$ Announced prices increases
Cost of sales increased in 2Q due to yen's depreciation (impact in first quarter negligible thanks to forward exchange contracts)
$\checkmark$ Increase in cost of sales due to one-time factors (disposal of inventories and change in accounting treatment of subsidiaries)
$\checkmark$ Rising costs of raw materials, transportation, and utilities
$\checkmark$ Partial commissioning of new plant (scheduled for July 2022) postponed due to construction delays
