COVID-19 Impact on Surgery Numbers at 2000 Hospitals (Salespeople's Report)

HOGY

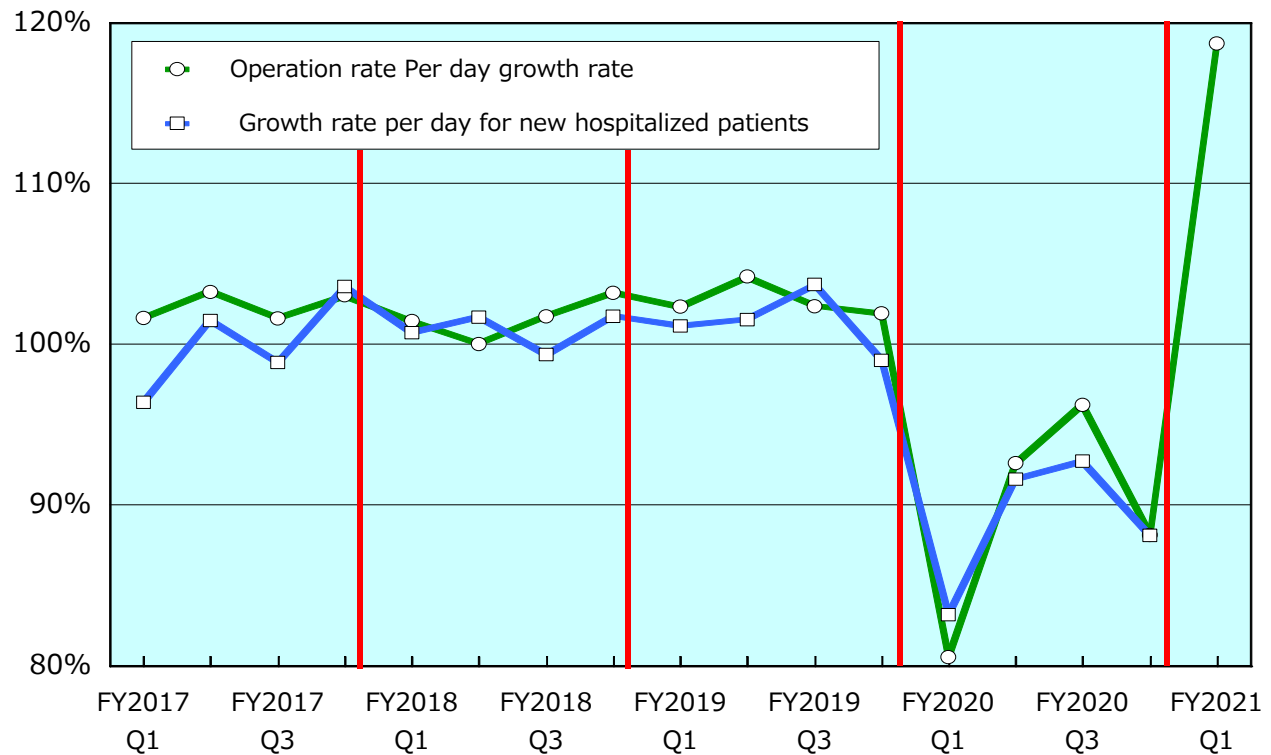

7

- Impact of COVID-19 on surgery numbers at 2000 hospitals (research conducted by Hogy Medical salespeople)

FY2020 1 Q : 25% down , 2 Q : 13% down , 3 Q : 10% down , 4 Q : 13% down
 FY2021 1 Q : 10% down

- The more urgent the surgery, the stronger the tendency to recover

Opera Master Hospital Increase rate of surgical cases Growth rate of new hospitalized patients / day

- Differing levels of recovery in surgery numbers depending on medical institution, leading to overall polarization trend

■ Market environmen

- ✓ Increased turnover of healthcare workers
- ✓ Renewed debate about work-style reforms for healthcare workers
- ✓ Ongoing polarization between medical institutions working to increase surgery numbers (in COVID-19 environment) and those working to improve management
- ✓ **Functional differentiation in medical institutions encouraged**

■ Performance highlights

- ✓ Although the number of surgeries continued to decrease (postponed) due to COVID-19, there was a year-on-year improvement; sales of surgical kits also rebounded
- ✓ Premium Kit sales up 56.7% year on year
- ✓ Start of recoil in sales of nonwoven products, which benefitted from special demand in the previous corresponding period
- ✓ Ongoing restrictions on some sales activities
- ✓ Concentrated our resources on Premium Kit sales
- ✓ Improvement in productivity due to increase in production volume

■ Higher sales; lower income plan

■ Assumed business conditions

- ✓ The situation will remain uncertain according to vaccination rollout progress, spread of mutant strains, and factors that could greatly change the infection status
- ✓ We expect the situation to improve from the previous year, but some impact will remain (The negative impact of COVID-19 will be about half that of the previous year)
- ✓ Continued polarization among medical institutions

■ Increased workload in medical institutions due to COVID-19 taking root

■ Increase in turnover of healthcare workers

Fiscal 2021 Income Forecasts

■ Net sales

- ✓ Due to the **accelerating shortage** of personnel at medical institutions, we are stepping proposals of Premium Kit, which guarantees **stable supply** and fosters **improvements in business efficiency and medical safety**
- ✓ We expect a reactionary increase in sales of products that were negatively affected by number of surgeries, and a reactionary decrease in sales products that enjoyed special demand

■ Cost of sales

- ✓ Improvement in productivity due to increase in production volume
- ✓ Decrease in depreciation cost (partial commissioning of equipment in Stage 2 construction of new surgical kit plant)
- ✓ Increase in costs due to yen's depreciation
- ✓ Establishment of production system to meet demand in Indonesia

■ SG&A expenses

- ✓ Increase in travel expenses, transportation costs, prototype costs, etc. due to increased sales activities

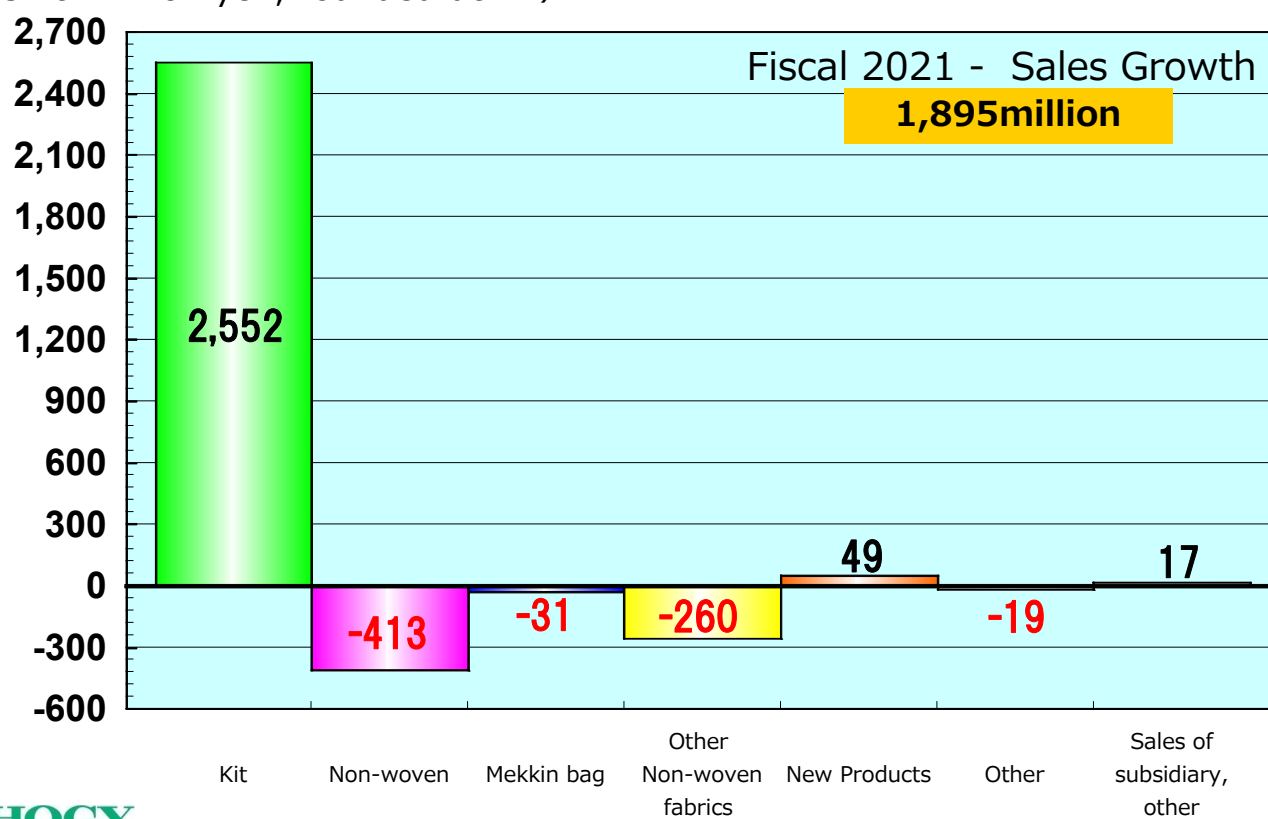

■ Extraordinary income

- ✓ Recorded gain on sale of shares in the previous year

Fiscal 2021 Plan Sales Growth by Major Products

(Unit: million yen, rounded down)
